NOTES:

KTTC Channel 10 News Center crews and Charter Cable unit use Nextel dispatch units in Rochester.

NOTE: I live in this area and listen to my scanners EVERY day looking for new information. All these frequencies and notes have been gained from my own personal monitoring. I invite your input, corrections and updates. I do ask, however, that you NOT steal my information. As you can see, I have put MANY hours of effort into listening and studying these systems. If you are interested in sharing information with other scanner hobbyists in Minnesota, I suggest you join my listserv, called ScanMN. Point your browser to: <http://groups.yahoo.com/group/ScanMN/>.
